

Security and Safety

The protection of our team members and families is our top priority here at Jardin. You can be confident that Jardin is offering an environment that promotes your child's growth while also offering a secure atmosphere during their vulnerable stages of development. We've implemented numerous security steps in effect as a result.

- 24 hours camera surveillance.
- All building entrances, hallways and classrooms are monitored through camera surveillance.
- Building Security Door: Remains locked 24 hours, and only gives access to those with activated Key Cards.
- Our Safety Monitoring System is connected to the Police Department.
- The Fire Alarm System and Fire Sprinklers System is monitored and inspected.
- There are monthly fire drills, and tornado drills, where we practice our fire exits and tornado shelters.
- Teachers practice pick-up safety procedures. Family members are asked for IDs at the classroom door if they are not in the child's pick-up list.
- Every classroom door has Guard Door Protectants to avoid pinching fingers.
- All our classrooms have big windows to be able to observe teacher-student interactions and activities.
- Jardin implements an open door policy for parents. You are welcome to come and visit your child at any time during the day.
- All our team members are certified in CPR and First Aid, Sudden Infant Death, and Abusive Head Trauma.
- Before joining Jardin, all our team members receive an enhanced criminal background check.
- Playgrounds are cleaned and inspected before use.
